THE IOWA STATE COLLEGE
ALUMNI ASSOCIATION

The Alumni Association's affairs are managed by an executive committee consisting of fifteen elected members serving three year terms and representatives of each of the local organized groups outside of Iowa which have an aggregate paid membership of twenty-five annual and/or life members. Ex officio members of the executive committee are the chairman of the Alumni Fund Trustees, senior member among the elected alumni on the Iowa State College athletic council, the chairman of the Memorial Union Board of Directors, the student body president, and the student presidents of each of the five undergraduate divisional councils.

The executive committee elects a president, one or more vice-presidents, recording secretary, executive secretary, treasurer, and such other officers as are necessary in conduct of the Association's affairs.

ELECTED MEMBERS OF THE EXECUTIVE COMMITTEE

J. D. Armstrong, '21, Ames—President

William Coulter, '25, Agricultural Division
S. A. Jordan, '25, Engineering Division
Dorothy Langhorne, '25, Science Division
Romney McCullough, '25, Vet. Medicine Division
Peggy McLauren, '24, Home Economics Division
PREFATORY NOTE

Recording achievements of and personal facts about alumni is an acknowledged responsibility of the Iowa State College Alumni Association. This volume is the organization's second directory of biographical information about a group of classes.

In 1899, through encouragement and financial assistance of President Emeritus R. M. Hughes, the Association was able to distribute a directory of graduates from 1872 through 1889. Editorial work—including collection of material, editing, proof reading, and so forth—was done by Miss Elizabeh Tiernan, alumni recorder. Printed copies were distributed free to living persons whose names appeared in the directory, and to other interested persons.

Before the first volume was completed, much work had been done on sketches of 1890 to 1899 graduates. In the intervening years the biographic work was interrupted frequently, but was never abandoned by Miss Tiernan, who found time for it without neglecting her other duties.

In preparation of the biographic sketches, each living graduate (or a near relative) was urged to furnish personnel information used as the basis of his sketch. Available supplementary material was incorporated. When completed, the sketch was returned for verification to the person supplying the information.

It is regretted that it was not possible to include information about scores of men and women who enrolled at Iowa State but left either to enter adult life without degrees or to qualify for their degrees elsewhere.

In the preparation of material errors may have crept in. We will appreciate receiving even minute corrections and will carefully record the same for future use.

Gratitude of the Alumni Association for preparation of this volume, as well as for the first one, goes to Dr. Hughes and Miss Tiernan. Publication of the sketches was made possible through gifts of alumni and an allocation of funds by the Alumni Fund Trustees. Our thanks go to the donors and to the trustees.

WALLACE B. HARRON, '28
Director of Alumni Affairs
